

L'Amy America Presents Ann Taylor Made Green Sun Styles

By Staff

Monday, July 24, 2023 12:08 AM

Quick Take: L'Amy America is presenting two new Ann Taylor Made Green sun styles.

Specifics: The styles are ATP926 and ATP927. ATP926 is a square eye shape with an upswept brow line and color blocking on the front corners. The frame is paired with dimensional gold temples and polarized lenses. It is available in black, tortoise and teal. ATP927 is a round frame constructed with deep colored acetates. It features polished gold and rose gold temples that wrap to the wrong end pieces, as well as polarized lenses. It is available in black/rose gold, mulberry/gold and teal/gold.

Selling Point: All Ann Taylor Made Green styles are designed with earth-friendly sustainable materials including biodegradable acetate and recyclable stainless steel.
