NICOLE MILLER RUNWAY

L'AmY America

L'AmY America launches its Nicole Miller Runway limited edition collection. Featuring four optical styles, the frames were reimagined by Miller with a vintage mix of today's trendy CatEye shape updated with large glittering stones, mixed materials and narrow geometric shapes in combinations of acetate and metal. Also featuring four feminine sunwear styles, the new additions offer a sophisticated glam look combined with a bit of the brand's edge. All of the new styles are named after famed French regions and are styled with the latest eyewear shapes that incorporate Miller's iconic mix of feminine/tough-girl chic.
