GO FOR GOLD

20/20 INSIGHT: When it comes to selecting a vibrant frame color, gold is always a winner in our book. Whether you are in search of an optical or sunglass style, this bright hue takes center stage without being too overpowering. We've rounded up a few styles constructed of gold metal that greatly support this sentiment. Let's just say, there's no such thing as too much gold. *—Victoria Garcia*

OUTSIDE the FRAME

Warm up and relax with this lavender foaming bath infused with ingredients such as sea salts and aloe vera to moisturize and condition skin.

—Jillian Urceley

Lavender Foaming-Relaxing Bath from Kiehls

1
