### ANN TAYLOR LUXURY *L'Amy America*

L'Amy America debuts four new styles from its Ann Taylor Luxury collection. Offering options in both petite and regular sizing, each frame expresses elegant luxury through crystal and pearl detailing, as well as a mix of classic and patterned colorations. Designed with a square shape and an angular inner profile, style AT025 features sparkled rounded temples created with two-tone crushed crystal. Petite style ATP028 offers a feminine CatEye shape with a subtle upswept brow line. Available in deep front colors for a luxurious look, temples are adorned with pearl accents. Metal style AT026 adds an updated angular detail to its square shape with its two-tone coloration, and its polished flat temples feature dimensional pearl accents.
